Dear Greg,

Your juggling assembly last week was terrific. The way in which you tied the juggling and reading together made a wonderful impact on students. One kindergarten student was overheard telling her mom all about the "tricks" you performed. As she explained the assembly, in explicit detail, she was clear to use the reading and thinking strategies you connected to it. It was a great testimony of your clarity and impact on students. Staff has requested that I schedule you again next year!
